

The Lords Prayer and the Angelic Salutation the a Salutation (Classic Reprint)

And what a pity that the generality of Christians should run over this admirable prayer, with so little sense of what they are saying, and with dispositions so oppo site to the import of those sacred petitions! Consider 2dly, that in the beginning of this divine prayer, we call God our Father; and we are authorized to call him so by the Son of God himself. Stand astonished, my soul, at this high favour: what greater dignity can any creature be raised to, than to be called and to be a child of God? to have him for our Father, who made heaven and earth, and who fills heaven and earth with his infinite majesty? Omy soul, see thou never degenerate from this dignity of a child of God, by behaving thyself unworthy of such a Father. See thou never more make thyself a slave to sin, or Satan: Ochild of heaven, lie no longer groveling in the mire of the earth. In this prayer we are taught to address ourselves to our Father, who is in heaven, to the end, that we may reflect whither we are to direct our thoughts when we pray and that we may not suffer any attachment to the things of the earth, by love and affection, to hinder them from freely flying up to heaven.(Typographical errors above are due to OCR software and dont occur in the book.)About the Publisher Forgotten Books is a publisher of historical writings, such as: Philosophy, Classics, Science, Religion, History, Folklore and Mythology.Forgotten Books Classic Reprint Series utilizes the latest technology to regenerate facsimiles of historically important writings. Hidden Dangers of Cell Phone Radiation Every day, we're swimming in a sea of electromagnetic radiation (EMR)
produced by electrical appliances, power lines, wiring in buildings, and a slew of other technologies that are part of
modern life. From the dishwasher and microwave oven in the kitchen and the clock radio next to your bed, to the
cellular phone you hold to your ear—sometimes for hours each day—exposure to EMR is growing and becoming a
serious health threat. Read more... Genetics of Cancer Author: Dr. Magdy Aly Genetics of Cancer Genes are the heart
and brain of our development. They dictate the color of our eyes, our complexion and most certainly our susceptibility
to develop certain illnesses, among which, Cancer is one that we are most concerned about. Is there a way to determine
if we are predisposed and carry a higher risk of developing certain cancers? Can we predict at what age we may develop
an illness? And if so, what can, or rather, shall we do about it. Read more... Main Menu Home PROFILE
