

# Grimpow: The Invisible Road

GRIMPOW HAD NO idea who the dead man was, but hidden in his leather bag was a treasure that would change his life forever. Ruby and emerald encrusted daggers, silver coins, jewels, and a letter with a golden seal depicting a snake swallowing its own tail. And clutched in the man's firm grip - a stone. A stone that will shape Grimpow's destiny. For when he holds it, strange things begin to happen. Visions of places he's never been fill his mind and he's able to read the strange language in the letter, a message meant for someone else entirely. So begins Grimpow's journey with the stone - a centuries-long journey that has driven sane men crazy, turned peaceful men violent, and made strong men powerless. No man has ever unlocked its secrets. But no boy has ever tried.

From the dishwasher and microwave oven in the kitchen and the clock radio next to your bed, to the cellular phone you hold to your ear—sometimes for hours each day—exposure to EMR is growing and becoming a serious health threat. Read more... Genetics of Cancer Author: Dr. Magdy Aly Genetics of Cancer Genes are the heart and brain of our development. They dictate the color of our eyes, our complexion and most certainly our susceptibility to develop certain illnesses, among which, Cancer is one that we are most concerned about. Is there a way to determine if we are predisposed and carry a higher risk of developing certain cancers? Can we predict at what age we may develop an illness? And if so, what can, or rather, shall we do about it. Read more...
