

Non Timber Forest Products: Production, Consumption and Policy in Gujarat

This survey of Non Timber Forest Products (NTFPs) throughout the state of Gujarat, India, aims to set availability, production, consumption, management, marketing and policy in the context of social and economic development of tribal communities. This book is not intended to be a manual of practice, rather, it is a comprehensible introduction to NTFPs status in Gujarat. This book will also be useful to practitioners perhaps coming to the contribution of NTFPs to the forest revenue, production status etc.

From the dishwasher and microwave oven in the kitchen and the clock radio next to your bed, to the cellular phone you hold to your ear—sometimes for hours each day—exposure to EMR is growing and becoming a serious health threat. Read more... Genetics of Cancer Author: Dr. Magdy Aly Genetics of Cancer Genes are the heart and brain of our development. They dictate the color of our eyes, our complexion and most certainly our susceptibility to develop certain illnesses, among which, Cancer is one that we are most concerned about. Is there a way to determine if we are predisposed and carry a higher risk of developing certain cancers? Can we predict at what age we may develop an illness? And if so, what can, or rather, shall we do about it. Read more...
