

The Problem With Pants (Holiness Helps) (Volume 2)

A research into the reasons of righteous living. The Problem of Pants is a research into the history of women wearing pants in Western civilization. It delves into how this ungodly change in apparel came about and its unfortunate impact on our culture. This book also peers into what the Bible has to say about gender distinction in the midst of the confused world we live in, and how even our dress can send a godly or ungodly message to those around us.

From the dishwasher and microwave oven in the kitchen and the clock radio next to your bed, to the cellular phone you hold to your ear—sometimes for hours each day—exposure to EMR is growing and becoming a serious health threat. Read more... Genetics of Cancer Author: Dr. Magdy Aly Genetics of Cancer Genes are the heart and brain of our development. They dictate the color of our eyes, our complexion and most certainly our susceptibility to develop certain illnesses, among which, Cancer is one that we are most concerned about. Is there a way to determine if we are predisposed and carry a higher risk of developing certain cancers? Can we predict at what age we may develop an illness? And if so, what can, or rather, shall we do about it. Read more...
