

Faith Walks

Perhaps you too, like me, have found the journey into eternity with God equally frustrating and fascinating, wearying and wonderful, challenging and comforting, exhausting and exhilarating, ruthless and rewarding. You know the destination is certain but the route is often scenic and bumpy. If the Lord God Almighty has made a profound and eternal impact on your life, then you are in a continual pattern of spiritual growth. However, with growth come growing pains. Margaret Butler knows that no path through life is always easy, but having the right guide can make all the difference. In this collection of devotionals, Margaret expertly blends biblical insight and personal experience. By exploring a wide variety of biblical characters, she shows readers how we can learn from their stories and apply those lessons to our own lives. She beautifully illustrates how biblical principles can be lived out in everyday encounters with the people around us. As you travel through life, you will know that you are not alone as you find inspiration and comfort in Margaret's words. Her book will prove an invaluable map as you journey on your Faith Walks.

From the dishwasher and microwave oven in the kitchen and the clock radio next to your bed, to the cellular phone you hold to your ear—sometimes for hours each day—exposure to EMR is growing and becoming a serious health threat. Read more... Genetics of Cancer Author: Dr. Magdy Aly Genetics of Cancer Genes are the heart and brain of our development. They dictate the color of our eyes, our complexion and most certainly our susceptibility to develop certain illnesses, among which, Cancer is one that we are most concerned about. Is there a way to determine if we are predisposed and carry a higher risk of developing certain cancers? Can we predict at what age we may develop an illness? And if so, what can, or rather, shall we do about it. Read more... Main Menu Home PROFILE
