

The Christ of Cynewulf, a Poem in Three Parts: The Advent, the Ascension, and the Last Judgment, Translated Into English Prose (Classic Reprint)

Excerpt from The Christ of Cynewulf, a Poem in Three Parts: The Advent, the Ascension, and the Last Judgment, Translated Into English Prose My purpose in the present translation is so to combine faithfulness with literary quality as to afford reasonable satisfaction to both the specialist and the general student of literature. In my diction I have endeavored to avoid unintelligible archaisms, and have sought after simple idioms, with a preference for words of Germanic origin. All things considered, prose has been adopted as the most satisfactory medium of translation. Verse may be the ideal form, but it requires an ideal translator; and with the exception of Tennyson's version of The Battle of Brunanburh, and perhaps one or two others, I can think of none that are at all adequate. Nor is prose without its peculiar advantages; in at least one important respect it is superior to verse, since its flexibility offers a more facile medium for reproducing that metrical variety which is one of the principal charms of Old English poetry. Up to the present time there have appeared three complete translations of this poem - Thorpe in his edition of the Codex Exoniensis, Gollancz in his two editions of The Christ, and Grein in his Dichtungen der Angelsachsen. I have made free use of these translations, and am indebted to them for an occasional word or phrase. The line-numbering follows the original, which necessarily causes irregular intervals between the marginal numbers. Square brackets indicate words inserted by the translator for the sake of clearness. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. They dictate the color of our eyes, our complexion and most certainly our susceptibility to develop certain illnesses, among which, Cancer is one that we are most concerned about. Is there a way to determine if we are predisposed and carry a higher risk of developing certain cancers? Can we predict at what age we may develop an illness? And if so, what can, or rather, shall we do about it. Read more...
