

Learning To Soar

Gods desire for us is to rise from glory to glory. As such, He has made provision for us to attain the greatest heights in life. However, negligence and slothfulness can open the door for demonic activity that brings about hindrances in our lives. These events can ultimately cause a delay in the fulfillment of Gods plan for us. Learning To Soar takes you to the root cause of these dilemmas, showing you the success-proof tactics for rising above your adversary and to keep soaring. With a unique blend of biblical knowledge and spiritual insight, this book brings to light the strategies the enemy uses to launch his attacks. Discover what you need to know to stand strong against the enemy and put him under your feet. The insights found in this book, if practiced, will help you to alter your present situation, as well as prepare and position you for a glorious future.

From the dishwasher and microwave oven in the kitchen and the clock radio next to your bed, to the cellular phone you hold to your ear—sometimes for hours each day—exposure to EMR is growing and becoming a serious health threat. Read more... Genetics of Cancer Author: Dr. Magdy Aly Genetics of Cancer Genes are the heart and brain of our development. They dictate the color of our eyes, our complexion and most certainly our susceptibility to develop certain illnesses, among which, Cancer is one that we are most concerned about. Is there a way to determine if we are predisposed and carry a higher risk of developing certain cancers? Can we predict at what age we may develop an illness? And if so, what can, or rather, shall we do about it. Read more...
