

Will I Survive?: The Purpose and Process in Life

Will I survive? If you've lived any time at all, the question is there, consciously or subconsciously. Why is so much bad happening to me? Where is God in all the chaos? The purpose of this book is to help you survive life's storms. With clarity, comes peace and comfort, together with the courage and strength to continue becoming who you were meant to be. This is a practical book that will meet you where you live, in everyday life, and in everyday situations. As I worked through my own personal crisis, the Lord continued to give me insight into how He uses hardship to make me into what He would have me to be. Journey with me from the wheat field to the oven as I share my insight by drawing a parallel between the bread-making process, and the development of the Body of Christ. Keeping the process in mind will help you see the bigger and broader picture of life in the midst of crisis. As you read, you will find yourself somewhere in these pages, somewhere in the process. The light of revelation will come and pierce the dark clouds surrounding your understanding of the purpose and process of life.

From the dishwasher and microwave oven in the kitchen and the clock radio next to your bed, to the cellular phone you hold to your ear—sometimes for hours each day—exposure to EMR is growing and becoming a serious health threat. Read more... Genetics of Cancer Author: Dr. Magdy Aly Genetics of Cancer Genes are the heart and brain of our development. They dictate the color of our eyes, our complexion and most certainly our susceptibility to develop certain illnesses, among which, Cancer is one that we are most concerned about. Is there a way to determine if we are predisposed and carry a higher risk of developing certain cancers? Can we predict at what age we may develop an illness? And if so, what can, or rather, shall we do about it. Read more... Main Menu Home PROFILE Curriculum Vitae Professional Career Teaching Honors & Awards References Home Country Genetics Lectures
