

THE BIBLE MADE EASY: A Complete Overview and Succinct Explanation of the 66 Amazing Books of the Bible

How well do you know your Bible? Do scriptures make sense to you when read them? Millions of professed Christians in America and around the world cannot quote the first five books of the Bible, much less quoting their contents. As important and life-changing the Bible is, sadly, many Christians do not read it. Many claim that it is too hard and too complex to understand; therefore, they become discouraged, confused and ultimately gave up hope. The Bible Made Easy strives to make the Bible both fun to read and easy to understand. Let it also be said that in preparing these studies, the author has proceeded upon the basis of the belief in the Bible as the Word of God, a true source of comfort for all hopelessness and a safe guide to all faith and conduct whether of individuals or of nations. No other book on earth has done what the Bible has done for humanity, which begs the question: Why do most people do not study/read the Bible? After reading The Bible Made Easy: A Complete Overview and Succinct Explanation of the 66 Amazing Books of the Bible, the reader will discover how easy and fun the Bible is to read and understand. Furthermore, he/she will discover the treasure trove buried within the pages of this wonderful book, The Bible. All scripture is given by inspiration of God, and is profitable for doctrine, for reproof, for correction, for instruction in righteousness: That the man of God may be perfect, thoroughly furnished unto all good works. II Timothy 3:16-17

Hidden Dangers of Cell Phone Radiation Every day, we're swimming in a sea of electromagnetic radiation (EMR) produced by electrical appliances, power lines, wiring in buildings, and a slew of other technologies that are part of modern life. From the dishwasher and microwave oven in the kitchen and the clock radio next to your bed, to the cellular phone you hold to your ear—sometimes for hours each day—exposure to EMR is growing and becoming a serious health threat. Read more... Genetics of Cancer Author: Dr. Magdy Aly Genetics of Cancer Genes are the heart and brain of our development. They dictate the color of our eyes, our complexion and most certainly our susceptibility to develop certain illnesses, among which, Cancer is one that we are most concerned about. Is there a way to determine if we are predisposed and carry a higher risk of developing certain cancers? Can we predict at what age we may develop an illness? And if so, what can, or rather, shall we do about it. Read more...
