

# The Monkeys at My School

When you live in the jungle, you should always be ready for the unexpected. Life is never boring when you share your school with mischievous monkeys, slithery snakes, and cats in the canteen! Living closely day after day with an ever-changing cast of unique animals in a school is a wonderful chance for children of all ages to learn how to coexist together in harmony with many different species of animals.

From the dishwasher and microwave oven in the kitchen and the clock radio next to your bed, to the cellular phone you hold to your ear—sometimes for hours each day—exposure to EMR is growing and becoming a serious health threat. Read more... Genetics of Cancer Author: Dr. Magdy Aly Genetics of Cancer Genes are the heart and brain of our development. They dictate the color of our eyes, our complexion and most certainly our susceptibility to develop certain illnesses, among which, Cancer is one that we are most concerned about. Is there a way to determine if we are predisposed and carry a higher risk of developing certain cancers? Can we predict at what age we may develop an illness? And if so, what can, or rather, shall we do about it. Read more...
