

# The Long View: Reflections on Life, God, and Nature

Pastor and cowboy Don Underwoods weekly columns for the last thirty years have touched hearts and changed lives. This collection of some of his best reminds readers how God is ever present, in the heat of the summer and the prayed for rain, in the lives of the least likely acquaintance and the best loved parent. It is his celebration of the everyday and Underwoods own recognition of the greatest beauty in the smallest of things that makes this a book readers will return to again and again. Topics include: The Journey, Nature, All Gods Creatures, Priorities, The Circle of Life, and The Seasons. Either photographs or line drawings will illustrate selected essays or chapter openers.

From the dishwasher and microwave oven in the kitchen and the clock radio next to your bed, to the cellular phone you hold to your ear—sometimes for hours each day—exposure to EMR is growing and becoming a serious health threat. Read more... Genetics of Cancer Author: Dr. Magdy Aly Genetics of Cancer Genes are the heart and brain of our development. They dictate the color of our eyes, our complexion and most certainly our susceptibility to develop certain illnesses, among which, Cancer is one that we are most concerned about. Is there a way to determine if we are predisposed and carry a higher risk of developing certain cancers? Can we predict at what age we may develop an illness? And if so, what can, or rather, shall we do about it. Read more...
