

Crystal (Frozen World)

Crystal is unusual; she has silvery blonde hair and blue eyes. There isn't anyone like her in the Town except for her mum and everyone says her mum is either crazy - or a witch. Crystal knows that the Town leader has something to do with her mother's madness but how can she prove it? And how can she stop him when the Town Guard tramps the streets day and night, there's a curfew, and a strange creature in their house spies on them and records their every move? When Crystal thinks she glimpses someone looking up at her from the depths of Lop Lake, she is amazed but strangely hopeful. Could this be the help she's been waiting for?

From the dishwasher and microwave oven in the kitchen and the clock radio next to your bed, to the cellular phone you hold to your ear—sometimes for hours each day—exposure to EMR is growing and becoming a serious health threat. Read more... Genetics of Cancer Author: Dr. Magdy Aly Genetics of Cancer Genes are the heart and brain of our development. They dictate the color of our eyes, our complexion and most certainly our susceptibility to develop certain illnesses, among which, Cancer is one that we are most concerned about. Is there a way to determine if we are predisposed and carry a higher risk of developing certain cancers? Can we predict at what age we may develop an illness? And if so, what can, or rather, shall we do about it. Read more...
