

# Corinthian Democracy: Democratic Discourse in 1 Corinthians (Princeton Theological Monograph)

In this innovative study, Anna Miller challenges prevailing New Testament scholarship that has largely dismissed the democratic civic assembly--the ekklesia--as an institution that retained real authority in the first century CE. Using an interdisciplinary approach, she examines a range of classical and early imperial sources to demonstrate that ekklesia democracy continued to saturate the eastern Roman Empire, widely impacting debates over authority, gender, and speech. In the first letter to the Corinthians, she demonstrates that Paul's persuasive rhetoric is itself shaped and constrained by the democratic discourse he shares with his Corinthian audience. Miller argues that these first-century Corinthians understood their community as an authoritative democratic assembly in which leadership and citizenship cohered with the public speech and discernment open to each. This Corinthian identity illuminates struggles and debates throughout the letter, including those centered on leadership, community dynamics, and gender. Ultimately, Miller's study offers new insights into the tensions that inform Paul's letter. In turn, these insights have critical implications for the dialogue between early Judaism and Hellenism, the study of ancient politics and early Christianity, and the place of gender in ancient political discourse.

From the dishwasher and microwave oven in the kitchen and the clock radio next to your bed, to the cellular phone you hold to your ear--sometimes for hours each day--exposure to EMR is growing and becoming a serious health threat. Read more... Genetics of Cancer Author: Dr. Magdy Aly Genetics of Cancer Genes are the heart

and brain of our development. They dictate the color of our eyes, our complexion and most certainly our susceptibility to develop certain illnesses, among which, Cancer is one that we are most concerned about. Is there a way to determine if we are predisposed and carry a higher risk of developing certain cancers? Can we predict at what age we may develop an illness? And if so, what can, or rather, shall we do about it. Read more...
