

# First Lessons in Botany and Vegetable Physiology: To Which Is Added a Copious Glossary, or Dictionary of Botanical Terms

This work has been selected by scholars as being culturally important, and is part of the knowledge base of civilization as we know it. This work was reproduced from the original artifact, and remains as true to the original work as possible. Therefore, you will see the original copyright references, library stamps (as most of these works have been housed in our most important libraries around the world), and other notations in the work. This work is in the public domain in the United States of America, and possibly other nations. Within the United States, you may freely copy and distribute this work, as no entity (individual or corporate) has a copyright on the body of the work. As a reproduction of a historical artifact, this work may contain missing or blurred pages, poor pictures, errant marks, etc. Scholars believe, and we concur, that this work is important enough to be preserved, reproduced, and made generally available to the public. We appreciate your support of the preservation process, and thank you for being an important part of keeping this knowledge alive and relevant.

[Hidden Dangers of Cell Phone Radiation](#) Every day, we're swimming in a sea of electromagnetic radiation (EMR)  
produced by electrical appliances, power lines, wiring in buildings, and a slew of other technologies that are part of  
modern life. From the dishwasher and microwave oven in the kitchen and the clock radio next to your bed, to the  
cellular phone you hold to your ear—sometimes for hours each day—exposure to EMR is growing and becoming a  
serious health threat. [Read more...](#) [Genetics of Cancer](#) [Author: Dr. Magdy Aly](#) [Genetics of Cancer](#) Genes are the heart  
and brain of our development. They dictate the color of our eyes, our complexion and most certainly our susceptibility  
to develop certain illnesses, among which, Cancer is one that we are most concerned about. Is there a way to determine  
if we are predisposed and carry a higher risk of developing certain cancers? Can we predict at what age we may develop  
an illness? And if so, what can, or rather, shall we do about it. [Read more...](#) [Main Menu](#) [Home](#) [PROFILE](#)
