

Side Effect

Janna Sorelle is a determined young professional born and raised in Moscow, Russia, but, having French background, she considers herself French and strives to return to her historical homeland. Her first visit to Paris, where she goes as a translator of a rich but ill-mannered Russian businessman, turns into something totally unexpected. After a strange incident at a small restaurant, Janna is kidnapped - and this is just the beginning of an adventure she couldn't have ever imagined. As the story unfolds, Janna finds herself working for Technotics, a huge international corporation with an advanced security system owned by the mysterious Mr. Kumidi. Janna is told that Technotics is an engineering company working on some technical research, but, as she begins to suspect, things are not that simple. There is a secret laboratory in what they call the lower level of the company building, and some of the employees seem to be not exactly human. Side Effect is approximately 59,000 words.

From the dishwasher and microwave oven in the kitchen and the clock radio next to your bed, to the cellular phone you hold to your ear—sometimes for hours each day—exposure to EMR is growing and becoming a serious health threat. Read more... Genetics of Cancer Author: Dr. Magdy Aly Genetics of Cancer Genes are the heart and brain of our development. They dictate the color of our eyes, our complexion and most certainly our susceptibility to develop certain illnesses, among which, Cancer is one that we are most concerned about. Is there a way to determine if we are predisposed and carry a higher risk of developing certain cancers? Can we predict at what age we may develop an illness? And if so, what can, or rather, shall we do about it. Read more...
