

Prayer: Does It Make Any Difference?

In his most powerful book since *What's So Amazing About Grace?* and *The Jesus I Never Knew*, Philip Yancey explores the intimate place where God and humans meet in Prayer. Polls reveal that 90 percent of people pray. Yet prayer, which should be the most nourishing and uplifting time of the believers day, can also be frustrating, confusing, and fraught with mystery. Writing as a fellow pilgrim, Yancey probes such questions as: Is God listening? Why should God care about me? If God knows everything, what's the point of prayer? Why do answers to prayer seem so inconsistent? Why does God sometimes seem close and sometimes seem far away? How can I make prayer more satisfying? Yancey tackles the tough questions and in the process comes up with a fresh new approach to this timeless topic. I have learned to pray as a privilege, not a duty, he says, and he invites you to join him on this all-important journey.

From the dishwasher and microwave oven in the kitchen and the clock radio next to your bed, to the cellular phone you hold to your ear—sometimes for hours each day—exposure to EMR is growing and becoming a serious health threat. Read more... Genetics of Cancer Author: Dr. Magdy Aly Genetics of Cancer Genes are the heart and brain of our development. They dictate the color of our eyes, our complexion and most certainly our susceptibility to develop certain illnesses, among which, Cancer is one that we are most concerned about. Is there a way to determine if we are predisposed and carry a higher risk of developing certain cancers? Can we predict at what age we may develop an illness? And if so, what can, or rather, shall we do about it. Read more...
