

## Japanese Plants Know Them and Use Them

In Japan, many a story lies behind a simple query of What is that plant? Unwittingly, whilst in Japan you may have eaten it or worn it, or you may have admired its relations in your western gardens. Within these pages visitors and residents, as well as gardeners, will find much hitherto uncollected information. The two aspects of identification and of use are brought together by the authors - an inquiring horticulturist and a resident linguist, to give an easily-readable book to satisfy the gardener and to intrigue everyone.

From the dishwasher and microwave oven in the kitchen and the clock radio next to your bed, to the cellular phone you hold to your ear—sometimes for hours each day—exposure to EMR is growing and becoming a serious health threat. Read more... Genetics of Cancer Author: Dr. Magdy Aly Genetics of Cancer Genes are the heart and brain of our development. They dictate the color of our eyes, our complexion and most certainly our susceptibility to develop certain illnesses, among which, Cancer is one that we are most concerned about. Is there a way to determine if we are predisposed and carry a higher risk of developing certain cancers? Can we predict at what age we may develop an illness? And if so, what can, or rather, shall we do about it. Read more...
